

## Federal Energy Regulatory Commission

## §2.9

### §2.8 [Reserved]

### §2.9 Conditions in preliminary permits and licenses—list of and citations to “P—” and “L—” forms.

(a) The Commission has approved several sets of standard conditions for normal inclusion in preliminary permits or licenses for hydroelectric developments. In a special situation, of course, the Commission in issuing a permit or license for a project will modify or eliminate a particular article (condition). For reference purposes the sets of conditions are designated as “Forms”—those for preliminary permits are published in Form P-1, and those for licenses are published in Form L’s. There are different Form L’s for different types of licenses, and the forms have been revised from time to time. Thus at any given time there will be several series of standard forms applicable to the various vintages of different types of licenses. The forms and their revisions are published in the Federal Power Commission reports and citations thereto are listed below.

(b) New or revised forms may be approved after preparation of this list (which is current as of October, 1975) and consequently do not appear herein. Forms currently in use, including those forms which have not yet appeared in the FPC reports, may be obtained from the Federal Power Commission, Office of Public Information, Washington, DC 20426.

(c) Within each of the categories, unless retired, the last-listed form is the one in use at the date of preparation of the list. The dates in the list represent issuance dates of the orders with which the particular forms were first published, or subsequently revised, in the FPC reports.
